EDUCATION

Amrita Vishwa Vidyapeetham <i>Bachelor of Technology in Computer Science and Engineering</i>	Jul 2024 – Present Coimbatore, India
Narayana Junior College <i>Intermediate (Mathematics, Physics, Chemistry)</i>	Jun 2022 – Apr 2024 Vijayawada, India
Bhashyam High School <i>Secondary Education</i>	Jun 2021 – Apr 2022 Guntur, India

SKILLS

Java, Python, C, JavaScript, HTML, CSS, React.js, Node.js, Express.js, Bootstrap, MySQL, MongoDB, Git, GitHub, VS Code, REST APIs, Arduino, Embedded C

PROJECTS

Ofoods26 – E-Commerce Platform	Mar 2026 - June 2026
- Developed a full-stack e-commerce platform for online food ordering and product management. - Built responsive user interfaces using React.js for seamless user experience. - Implemented product catalog, cart, and order management functionalities. - Integrated backend services and database operations for efficient data handling.	
Autonomous Robot Navigation System	Sep 2025 – Nov 2025
- Built an autonomous robot using Arduino UNO R4 with obstacle avoidance, line following, and manual control modes. - Developed a web-based Bluetooth controller for real-time robot navigation and control. - Integrated sensors and embedded C programming for autonomous movement and obstacle detection.	
Airline Reservation System	Jan 2025 – Apr 2025
- Developed a Java-based application for airline ticket booking and reservation management. - Designed an interactive GUI using Java Swing for booking and cancellation operations. - Applied OOP concepts including inheritance, abstraction, encapsulation, and polymorphism. - Managed flight and customer records using efficient data structures.	

RESEARCH EXPERIENCE

First Author & Paper Presenter	Feb 2026
<i>2nd International Conference on Next Generation Electronics (NEleX 2026)</i>	Vellore, Tamil Nadu, India
- First author of the paper “A Portable LiDAR-Based Adverse Weather Perception System for Four-Wheelers with Multi-Stage Denoising”. - Paper accepted and presented at NEleX 2026, organized by VIT Vellore and co-sponsored by the IEEE Madras Section. - Conducted research on LiDAR-based perception and multi-stage denoising for autonomous vehicle applications.	

Co-Curricular Activities

- Live-in-Labs Program(Amrita Vishwa Vidyapeetham)** – Engaged with rural communities to understand real-world challenges and contribute to sustainable development initiatives through fieldwork, problem analysis, and collaborative solutions.
- National Cadet Corps (NCC)** – Developed discipline, leadership, teamwork, and organizational skills through structured training and activities.
